DETAILED ACTION

Response to Amendment

The Amendment, filed on June 10, 2004, has been entered and acknowledged by the Examiner.

Claims 1-38 are pending in the instant application.

Allowable Subject Matter

Claims 1-38 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of an interference reflector positioned adjacent to the layer of phosphor material, and a TIR promoting layer in contact with the layer of phosphor material, the TIR promoting layer having a second index of refraction at the excitation light wavelength that is less than the first index of refraction at the excitation light wavelength.

Regarding claims 2-23, claims 2-23 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 24, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 24, and specifically comprising the limitation of a TIR promoting layer in contact with the layer of phosphor material, the TIR promoting layer having a second index of refraction at the excitation light wavelength that is less than the first index of refraction at the excitation light wavelength.

Regarding claims 25-38, claims 25-38 are allowable for the reasons given in claim 24 because of their dependency status from claim 24.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
